INTRODUCTION

This is a complete list of the STARFLEET Academy's active courses at this time. It is a checklist and reference for the personal use of members, such as a check off of courses you have taken or courses you may want to take in the future. It is also a catalog for our offline members.

Grayed-out Listings are Pending or Closed for Rewrite.
Listings in BOLD are also offered as FACs. (Online quizzes)

As there may be new courses and colleges, or a change in personnel, since this document was released (and before the next update), please consult the STARFLEET Academy web site (<http://academy.SFI.org>) for the most current information. **NOTE: If there has been a Director change since this issue of the printed catalog, most former directors will forward your mail to the right person. Directors have real-world lives too, so please be patient.**

TAKING COURSES

You have four ways of taking courses from STARFLEET Academy:

- 1) On-line (FAC)** through the SFA website. **This is the preferred option, if the exam is programmed into the Automated system.**
- 2) Download** the exam and manual (if applicable) from the course page. **This option is for exams not on the FAC system or students who have limited Internet access. Most FAC's also have a PDF download option.**
- 3) E-mail** the Director or Dean (from Moodle or this catalog) and ask for the exams you want. Students who live outside the USA are encouraged to conduct their studies by e-mail. Your request must include: Name, SCC#, postal address, and Course number/title requested. **This option is for students who, for some reason, only has email options on their devices, or uses public or work PC's in which downloads or interaction are restricted..**
- 4) Postal Mail:** Contact the Director by email for his/her postal address. **If you must conduct your course by postal mail,** please send the required tuition and stamps to the Director. List what exams you want, **up to 5 exams at a time.** Your request must include: Name, SCC#, postal address, and Course number/title requested.

Tuition covers all expenses the Director incurs by sending you exams and diplomas through the USPS.

PLEASE do not return more than 5 completed exams at a time to any one director. Spamming the Director only slows down the process of grading and posting your grades.

DISPUTE RESOLUTION

If you have an issue, such as a lack of response, or want to challenge an answer, please use the following steps.

GRADING OF EMAILED EXAMS. The Director is allowed **2 weeks** to grade exams, post grades, and issue certificates. If after 2 weeks you have not received your grades and/or certificates then proceed as shown below:

1. Contact the College Director. If no response by 7 days (email) or 14 days (postal mail), then
2. Contact the Assistant Director. If no response in 7 days, then
3. Contact the Dean of the Institute the course is in. If no response by 7 days (email) or 14 days (postal mail) then
4. Contact the Academic Coordinator Jill Rayburn at jzdansfa@gmail.com

CHALLENGE OF AN ANSWER: If you feel an answer you gave was incorrectly marked wrong:

1. Contact the College Director. If no response by 7 days (email) or 14 days (postal mail) then
2. Contact the Dean of the Institute the course is in. If no response by 7 days (email) or 14 days (postal mail) then
3. Contact the Academic Coordinator Jill Rayburn at jzdansfa@gmail.com
