

ACADEMY MONITOR

FROM THE PRINCIPAL'S OFFICE...

**ADMIRAL
PEG
PELLERIN**

**Commandant,
STARFLEET
Academy**

Greetings from the great Halls of Learning, STARFLEET Academy.

To those members of the Northern Hemisphere, I hope you're having a wonderful summer and to those of the Southern Hemisphere, hope your winter isn't too harsh. It is very hot and humid, here in the Northeastern portion of the U.S., specifically, Maine.

Well, nominations have come and gone for the position of Commander STARFLEET. The requirement to become a candidate for CS was 5 or more nominations.

They were:

- Jonathan Simmons - 25
- Robert Westfall - 19
- Reed Livingston Bates - 14
- Steven Parmley - 13
- Robin Woodell-Vitasek - 5

The choices of these candidates for SFA Commandant are:

- Jonathan = **James Herring**
- Robert & Reed = **Glen Diebold**
- Steven = **Larry French**

I'm not sure if Robin will continue to run for CS, but as of this writing, she hasn't stated who she would want for SFA Commandant. I will refrain from giving you my opinion of who out of these I feel would be a wonderful 'Dant. You, the members, have the responsibility to look at each CS candidate's platform and make the decision of who you feel will be the best to lead STARFLEET for the next three years. If you don't vote, then you really don't have a reason to complain if you don't like how things are handled. So, make sure when that card comes

in the mail, to not throw it away, VOTE!

OMG, will the Academy please make up its mind! I'm sure that is what is on many a members' mind. SFA has a course request program, then it doesn't, then it does and now, again, it doesn't. Well, folks, we plan to not have one and the reason being is our Academy has grown to have so many colleges that the program can't keep up and forms glitches with not sending the requests to the intended directors on a regular basis, which is why some of you feel you were ignored when you didn't get a reply to your requests.

From now on, members who wish to take STARFLEET Academy course(s) should follow these directions:

1) Enter into your browser:
<http://acad.sfi.org/courses/index.php>.
This brings you to our college catalogue.

2) Click onto the course you wish to take and it will bring you to a page that describes the course and at the very top of this page, the name and email of the director. Email this director to personally request what you wish to take. You may request up to five courses at one time. Please give the director a full 7 days to reply to your request. If you don't receive anything after that time, send another request, but this time copy the Dean of said Institute.

3) Good luck and most importantly, HAVE FUN!

Admiral Peg Pellerin,
SFA Commandant
admiralpeg@gmail.com
1-888-734-8735 EXT. x705

*Happiness is a choice,
today I will choose to be happy.*

“With Leonard, I was thrown into his company because of appearances like this, and movies. We had a lot to do with each other. He was the brother I never had, as we used to say to each other. He had a brother, I didn't have one. He was my brother.”

William Shatner

**FROM THE
VICE COMMANDANT'S DESK**
Admiral Glendon Diebold

First: I wish to welcome Robbie Lewis and hope he finds the Monitor an easy fit.

Second: With the Commandant out for a little while I look forward to stepping up to protect the office from all the staff who want to try and toilet paper the command bathroom and her office. We should surprise her and leave it as she had never been away. (as many of you on the Directors and dean's list it is a running joke that there will be parties when the Commandant is away). In case any of you have not heard the Course Request system has been officially taken off line. Instead of thinking of this as going backwards I would like to suggest we consider it a chance to be that much more sure that we are getting the requests we may have been missing, and also the chance to establish a closer relationship with the students.

On the Award side we have been seeing an increase in the number of people taking exams and more of them are taking courses from more than one college. The last few months there has been people taking 6 or 7 and in one case one student took courses from 10 different colleges and received Distinction grades from all of them. Please be sure to include your colleges Outstanding students with your MSR's and be sure that the Academic coordinator, the Dean and I get a copy. You can send the Vice Dants copy to either GDiebold@sfi.org or Ussniagara@roadrunner.com.

The Outstanding Students of the Month for March was David Miller with 7 recommendations,
April was David Whitford with 7 recommendations,

May was Cindy Jo Hull with 10 recommendations, and June was Diana Wolf, it was a close 4 way race this month but she had taken the most courses.

On another note as a Director of a few colleges, I wish to announce that completion and active status of the college of Art Appreciation with courses covering a wide variety of art periods, the aspects of are and courses on famous sculptors.

The College of Rocketry is adding about 20 exams on Propulsion and propulsion systems. And the College of Ecology is in the beta test stages with courses covering not only Ecology, but recycling and alternate energies.

In the Military Knowledge College of Military Trivia we are adding about 10 new courses covering US and International Medals and Decorations (these all have manuals with them).

With the Special Operations courses they continue to draw large numbers of students working toward their various levels in Starfleet Spec Ops.

And to close I suggest members pay attention to the elections coming up for Commander of STARFLEET and ask how they feel about the direction they want the Fleet and the Academy to go in the future.

Yours in Service
Admiral Glen Diebold
Vice Commandant

ACADEMY NEWS 2nd QUARTER

PERSONNEL CHANGES

- Deanship of Space Studies to Darlene Harper
- Assistant Dean Performing Arts to Rosa Jackson
- Assistant Dean of Life Sciences to Lee Vitasek
- College of Military History to Peg Pellerin
- College of Astrocartography to Donald Murray
- College of the Fantasy Realm to Cynthia Valdez
- College of Aerodynamics to Denise Rush
- College of Acoustic to Darlene Harper
- Academy Newsletter Editor to Robbie Lewis
- Web Team Member TG Guy
- Web Team Member Christopher Hart

NEW COLLEGES

- College of Art Appreciation Directed by Glen Diebold
- College of John Wayne Movies Directed by Carol Thompson
- Asimov Robot College Directed by Patricia Lewis
- College of Indigenous Peoples Directed by Patricia Lewis

PROMOTIONS

- Lee Vitasek to Rear Admiral
- William Sanderson to Commander
- Chad Griffiths to Lt. Junior Grade
- David Anderson, Jr. to Colonel
- Donald Murray to Lieutenant

ACADEMY REORGANIZATION

- Klingon Warrior Academy Closed till August 1, 2016
- Vulcan Academy of Science closed for rewrite
- Retirement of the Course Request system. Student shall email the Directors with their requests.
- Retirement of Word Trivia from the College of English
- College of Law Enforcement Assets merged into College of Law Enforcement Resources
- Colleges of Fire History and Law Enforcement History merged into the College of Law Enforcement and Fire History
- Reorganization of the College of Action and Drama

STUDENTS NEEDED

Hello fellow STARFLEET members and Academy students!

Have you checked out the latest STARFLEET Academy Course Catalog lately? There are thousands of courses to suit every STARFLEET member. From Alchemy to Nuts, Orbital Mechanics to Zombies, we've got something for you!

Check out many of the new colleges, too. Don't have time or desire to watch a t.v. show or movie, read a novel, or write an essay? That's okay, there are many exams that don't require anything but pulling up a couple of internet links to find the answers. Many of the new colleges have manuals that come with the exams, just answer the questions as you read along.

The **Institute of Science Fiction Literature** can sound like a scary place. But you won't find any essay writing or novel reading. All of the exams for the College of Dune, Asimov Foundation College, and the Asimov Robot College are easy, and come with internet links to find the answers. Many students have taken the exams without having ever read the novels...and in fact, some have become so interested in the material, they decided to read the books! Have you enjoyed a series of books that you think would work great in the Institute? Email the Director at: roseshakara@gmail.com

The **College of International Language Studies** is another interesting journey on your road to knowledge. Never heard of Tagalog, can't speak a word of Albanian? Then this is the college for you! All language exams are very simple words and phrases designed to give students an introduction to the look and sound of each language. All answers are on the internet, no universal translator, babel fish, or microbes required!

Are you proficient or a native speaker of a language not listed? Email the Director at: roseshakara@gmail.com

The **College of Star Trek Actors** has been a popular choice for Academy students. Many have commented on the interesting information they have learned about the stars and guests from the Star Trek series and movies. Easy answers to the questions can be found on the internet, and many of the exams are being converted into multiple choice, fill-in-the-blank, and matching for added ease and fun. Are we missing an actor you want to see in the college? Email the Director at: roseshakara@gmail.com

Watch in the next issue of The Monitor for more info and details on our exciting Institutes and Colleges.

Admiral Patricia Lewis
Dean, Institute of Science Fiction Literature
(IOSFL)
Director, College of International Language
Studies (CILS) and College of Star Trek Actors

STAMP TREK

Boldly coming to the U.S. Post Office

The United States Postal Service has announced the release date for the set of four “forever” Trek-themed stamps.

The stamps will be available for pre-order in early August for a September 2nd release.

The Star Trek: Mission New York convention will host a “first-day-of-issue” ceremony on September 2 at noon at the Jacob K. Javits Convention Center in New York City where the stamps will be featured.

The stamps include several USS Enterprise stamps, A Vulcan salute stamp, and a crewman transporting stamp.

STAR TREK'S ANTON YELCHIN DIES

LOS ANGELES (AP) — Anton Yelchin, a rising actor best known for playing Chekov in the new “Star Trek” films, was killed by his own car as it rolled down his driveway early Sunday, police and his publicist said.

The car pinned Yelchin, 27, against a brick mailbox pillar and a security fence at his home in Los Angeles, Officer Jenny Hosier said. He had gotten out of the vehicle momentarily, but police did not say why he was behind it when it started rolling.

Yelchin was on his way to meet friends for a rehearsal, Hosier said. When he didn't show up, the group came to his home and found him dead.

CBS has unveiled the surprise new title for its live-action Star Trek television series: “Star Trek: Discovery.” U.S.S. Discovery is the name of the new starship which will be featured in the show according to executive producer Bryan Fuller.

Star Trek: Discovery will debut in January 2017 on CBS, with future episodes airing on CBS's new streaming service All Access. For those outside the U.S. and Canada, the episodes will appear on Netflix 24 hours after their All Access debut.

The freak accident tragically cuts short the promising career of an actor whom audiences were still getting to know and who had great artistic ambition. “Star Trek Beyond,” the third film in the rebooted series, comes out in July.

Director J.J. Abrams, who cast Yelchin in the franchise, wrote in a statement that he was “brilliant ... kind ... funny as hell, and supremely talented.”

His death was felt throughout the industry.

“What a rare and beautiful soul with his unstoppable passion for life,” Jodie Foster said. “He was equal parts serious thinker and the most fun little brother you could ever dream of.”

SO YOU WANT TO BE A DIRECTOR??

Basic requirements are to be at least 18 years of age and have taken OTS and SAOC. Cadets at least 14 years of age may serve with an adult mentor.

To assume a vacancy, you must pass all of the exams in the College, or if a College of 35 to 60 exams, 75% of the exams. Colleges over 60 exams are tested out at 50% with a maximum of 50 exams required.

Assistant Directors must meet the same requirements as the Director.

To direct a College of your own creation, first check the College Catalogue to make certain your idea is not already being used.

If the concept is not being used elsewhere, submit a College outline, exam, and key to the Course Development Contact, Carol Thompson, at betazoid@mosquitonet.com.

Carol will determine where your College fits within the Academy structure and introduce you to your Dean who will lead you through the approval process.

THE STARFLEET ACADEMY INTERVIEWS

Fleet Captain JOSEPHINE FISHER

DEAN OF THE INSTITUTE FOR INTERNATIONAL STUDIES

GETTING TO KNOW YOU
ADMINISTRATORS, DEANS and DIRECTORS OF
STARFLEET ACADEMY

Interview conducted by Adm Patricia Lewis

Dean:

Institute of Alien Studies

Institute of International Studies

Director:

College of Superheroes

College of Doctor Who

Bajoran Orientation College

Formerly College of Economics (closed)

XenoKlingon

Interviewer / Questions: Patricia Lewis (PL)

Interviewee / Answers: Josephine Fisher (JF)

PL: Josephine, thank you for agreeing to be our first STARFLEET Academy Dean and Director featured in the new series "Getting to Know You" in the Academy Monitor. I have to start out with the standard question, because I love to hear the huge variety of answers, how did you get introduced to the television show Star Trek?

JF: Thank you for asking me to participate, I am honored to help! Well, about 20 years ago, one evening I sat down and watched an episode of The Next Generation, it was sufficient to get me hooked on Star Trek, until then Star Trek did not mean anything.

PL: Which is your favorite of the different Trek movies and series. Do you read the Star Trek novels or comics?

JF: Star Trek IV - The Voyage Home (love those whales). My favorite series is The Next Generation, but I love Voyager, too. I do not

read comics nor books right now. I used to read books before I went to work. When I was working, I had to do lots of research and very dry reading of Australian Income Tax Law - very dry!

PL: I can relate, I've had to do so much essay writing over the years for school and work, I go into hysterics if required to write any now, even for the Academy. Moving on to a fun subject, have you met any of the Trek actors or guest stars? Go to any conventions?

JF: I met Ethan Phillips and I got him to autograph the cookbook he wrote. I was at the same conference where Rene Auberjonois and Denise Crosby were guests. When I was treasurer of the Star Trek Club I belonged to, I met John Billingsley and his wife (lovely people). I've also met Connor Trinneer, Dominic Keating and Casey Biggs (lovely man, nothing like Damar), Gates McFadden and Nicole de Boer.

PL: That is an impressive list of actors you've met!! How did you find out about the STARFLEET International Fan Club, and what made you want to join?

JL: Through the Star Trek Club I belonged to here in Adelaide. Both my husband and I thought it was a cool thing to do.

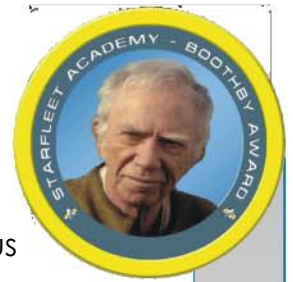

PL: What interested you about STARFLEET Academy? What courses did you start out taking?

JL: I was a member of the USS Southern Cross at first. Members were encouraged to do

STARFLEET ACADEMY: JOSEPHINE FISHER*Continued from page 17*

exams, but then I loved the challenge. It also increased my knowledge of various real life topics, as well as science fiction. The first exams I did were the Treknology ones.

PL: When and how did you become a Director and then Dean?

JL: I first became a Director when I did the Superheroes exams, and I was asked by the late Gary Hollifield, he recruited me and all the others have been by request. As far as Deanship, both Admiral Peg Pellerin and Admiral Carol Thompson asked me if I wanted to be Dean of the Institute of Alien Studies and Institute of International Studies respectively.

PL: Yes, we became better acquainted through the College of International Language Studies (CILS), where you were very helpful in updating the Italian and Australian exams, as well as beta-testing and giving me pointers on creating new language exams.

JF: Well, I came to Australia in 1961, when I was a young child, but I was born in Italy. In high school I studied Italian so I could increase my knowledge of my mother tongue. To do the Australian exams, I purchased an Australian slang book as I had learned correct English and no slang.

PL: While most of us in the Academy work on our fictional Ph. D., Masters, and so forth, what kind of academics and/or career have you had outside of STARFLEET Academy?

JF: I am retired now, but I am a qualified Accountant specializing in Australian Income Tax.

PL: Ah yes, the dry stuff! But a worthy and challenging occupation, taxes and tax

forms are mind-boggling at the best of times. When you are not working on STARFLEET Academy exams and projects, what do you like to do in your spare time?

JF: I love cooking, I look after my son's business and my elderly mother.

Let's close the interview in the same fashion as James Lipton does on Inside the Actors Studio, with an Academy twist, Inside the Academy Walls...

PL: What is your favorite STARFLEET Academy subject?

JF: Treknology

PL: What is your least favorite STARFLEET Academy subject?

JF: I like them all

PL: Which is your favorite Star Trek series?

JF: Star Trek: Next Generation

PL: What is your all-time favorite Star Trek episode out of all the series?

JF: Voyager "Counterpoint"

PL: What is your least favorite Star Trek episode out of all the series?

JF: Voyager Favorite Son

PL: If you could be any alien race we've seen in Star Trek, what would you be?

JF: Ocampo

PL: If you could be a fly on the wall, which Star Trek actor would you like to follow around for a day?

JF: Marina Sirtis

PL: If transporters were real, where would you transport to first?

JF: Italy

PL: Kirk or Spock?

JF: Spock

Special thanks to Josephine for sharing with us as our first interviewee, and playing along with Inside the Academy Walls.

Any volunteers for the next issue?

Email: roseshakara@gmail.com

Patty Lewis, Asst. Editor of Academy Monitor

Directions:

This puzzle is called a Cryptogram. I've always loved doing them! At the top there is a KEY that lists all the letters from A thru Z with a box below. Each of the letters has a corresponding number.

The bottom part contains a secret phrase. Each of the blanks has a number underneath it. Fill in the letters that correspond to the numbers below the blanks to solve the phrase.

The answer is hidden somewhere within this issue of the Academy Monitor. Good luck!!

COMING IN 2016
THE STARFLEET ACADEMY EXPERIENCE

StarTrek.com can reveal that Star Trek: The Starfleet Academy Experience, a brand-new interactive exhibit which uses the Star Trek franchise as a springboard to teach visitors about science and technology, will make its world debut at the Canada Aviation and Space Museum (CASM) in Ottawa, Canada, on May 26, 2016. Visitors can become Starfleet cadets, attempt to beat the Kobayashi Maru test and pilot a starship from an active bridge.

“We are very proud to be developing this wonderful exhibition with our partners EMS and CBS Consumer Products,” said Alex Benay, President and CEO of the Canada Science and Technology Museums Corporation. “We are certain it will prove to be a ‘must-see’ for the 2016 summer tourists and locals alike, as well as a wonderful

complement to the Canada Aviation and Space Museum’s existing visitor experiences and offerings on aviation and space travel.”

More specifically, The Starfleet Academy Experience will provide freshly minted cadets with a first-of-its-kind “Trek Tech” immersive experience

that takes the student from orientation into a rigorous training program involving simulated science, engineering, medical and command courses, through to graduation, and finally to the deck of an active starship. The experience is enriched with the actual science behind the science fiction of Star Trek as the participants learn about

emerging technologies such as a functional tricorder, NASA’s warp drive theory, and the latest experiments with phasers and teleporters.

EMS Entertainment, the leader in interactive immersive exhibitions, is producing the The Starfleet Academy Experience and doing so under license by CBS Consumer Products. Ottawa will be the first stop on a multi-city North American tour, with the exhibition set to be on view at the Canada Aviation and Space Museum from May until the end of September 2016.

“Star Trek has had a profound influence on many technologies we use today, and the show continues to inspire new technology and science,” said Christoph Rahofer, CEO of EMS Entertainment and producer of the show. “With Star Trek: The Starfleet Academy Experience, we will present the history of the future and what is envisioned for the future of science and technology.”

Visit www.StarfleetAcademyTour.com for the latest schedule and follow hashtag #StarfleetAcademy and @AvSpaceMuseum for more information in the coming months.

COLLEGE OF JOHN WAYNE MOVIES

Admiral Carol Thompson
 Director
 betazoid@mosquitonet.com
 9499 Brayton Dr. # 122
 Anchorage, AK 99507

Introduction

This College highlights the movies of the icon John Wayne, known as "The Duke" to his fans. His career spanned over 4 decades, and included bit parts, as well as starring roles, Directing, and Production.

Fans of John Wayne are encouraged to contact the Director to ghost write one or more of his movies for this College.

Current Schools in the College are:
 John Wayne Westerns
 John Wayne Military Movies
 John Wayne Seafaring Movies
 John Wayne Sports Movies
 John Wayne Comedy and Drama

The College page may be viewed at <http://acad.sfi.org/courses/iope/cojwm.php>

RESTORED USS ENTERPRISE RETURNS TO SMITHSONIAN AIR AND SPACE MUSEUM

COLLEGE OF SPACE PSYCHOLOGY

Lieutenant Donald Murray, SFMD
Director
spacepsy@i-phemera.net
PO Box 69
Asheboro, NC 27204

Introduction

The College of Space Psychology is an introduction to the study of the physiological and psychological effects of prolonged space exploration.

- Why do we need gravity?
- What dangers are there from too much team work?
- Is there an ideal crew composition?

With the coming mission to Mars, are there any unique challenges we need to be concerned about? Students in this college will gain an understanding of these questions and many others.

Curriculum

- SPSY-101 – The Human Factors in Space Exploration
- SPSY-102 –Physiological Stressors Effecting Performance, PT1
- SPSY-103 - Physiological Stressors Effecting Performance, PT2
- SPSY-104 - Physiological Stressors Effecting Performance, PT3
- SPSY-105 - Psychological Stressors Effecting Performance, PT1
- SPSY-106 - Psychological Stressors Effecting Performance, PT2
- SPSY-107 - Long-term Space Flight and a Mission to Mars
- SPSY-108 - Long-term Spaceflight and a Mission to Mars-The Effects of Hypomagnetic Exposure

All source materials needed are provided in the manuals.

THE LAST WORD

I want to thank Peg, Glen, and Carol for letting me visit the big glass tower at STARFLEET Academy Headquarters, and I hope I've got the information here in the *Monitor* that you're used to seeing.

Thanks to my wife - and Academy dean and school director - Patty Lewis for the extra articles and suggestions that she added for this issue.

I'm a 25+ year STARFLEET member, and I've been an old newsletter putter-togetherer from way back... I've worked on our chapter newsletter with the old USS Wasp, the Region One newsletter *Intercom*, and I've been able to dabble with a little work here and there on the CQ and *Command Status Reports* many moons ago. It's been fun to step back in and knock the rust off.

Thanks for having me with you here at the Academy! Let me know if you have any Academy news or other material or suggestions that you have for future issues.

Admiral Robbie Lewis
