

ACADEMY MONITOR

FROM THE PRINCIPAL'S OFFICE...

**ADMIRAL
PEG
PELLERIN**

**Commandant,
STARFLEET
Academy**

Greetings from the great Halls of Learning, STARFLEET Academy.

Where have nine years gone. It is difficult for me to believe that this is my next to last article as Commandant of STARFLEET Academy.

I can say I'm proud of myself for the Academy's growth in institutes, colleges, courses and staff, but I won't because it isn't myself that I'm proud of. The only reason that this Academy has gone so far is because of all of you. Simply but truthfully put, I'm so very proud of all of you. You are what made and continue to make this Academy great.

I have heard from many of our seasoned staff members as well as our newbies of how they feel being a staff member of the Academy team/family gives them purpose in belonging to STARFLEET. I couldn't agree with you more.

Give yourself all a huge pat on the back because you all deserve it.

Admiral Peg Pellerin,
SFA Commandant (for 3 more months)

OUTSTANDING STUDENTS OF THE MONTH

**JULY
CHRIS LOVEJOY**

**AUGUST
MICHAEL STELZER**

**SEPTEMBER
MICHAEL STELZER**

**FROM THE
VICE COMMANDANT'S DESK
Admiral Glendon Diebold**

The realignment and rewrite of the medical courses which used to be the SACOM progresses rapidly with the College of Medicine and the College of Sickbay are in the beginnings of Beta test.

The people developing the medical colleges are working hard to present informative and fun courses for the student. Moving all the medically related colleges to the new IOMA (Institute of Medical Arts) has made finding your courses easier and less confusing. We have found Medical Professionals (a doctor and a vet) who are providing information for the Courses in Emergency Medicine and a new College of Veterinary Medicine.

As we wait for the results of the CS election nobody is holding back, we are all working to get as many things going as possible before the end of the year.

The new Moodle system is getting very close

to being opened as more and more colleges get put into the system which will allow the student a variety of ways to get the courses they desire.

Remember, we do recognize the Outstanding Student each month. This is done by compiling the list of persons recommended by each director as the outstanding student of the college for the month. This is compiled by the Vice Commandant who receives all the directors' reports. Some months the numbers are tight among 2 or 3 people and other months there is a clear stand out with reports showing 10 and 12 directors having the same person that month.

Yours in Service,

Admiral Glen Diebold
Vice Commandant

I would like to send out a special thank you to Carol Thompson and Patricia Lewis for their expedient and dedicated work on the Moodle Project for the STARFLEET Online Academy.

What is Moodle and the SFOA? Look for more information in this issue of the Monitor.

Captain Kevin Plummer
Chief of Electronic Services, SFA
Chief Trailblazer, Project Moodle

Congratulations to the following STARFLEET members who earned Academy Squad Awards for the 2015 calendar year:

Certificates were e-mailed out to all of you. If you have not received yours by now, please contact our Chief of Recognitions, Franklin Newman III, at franklinnewman3@gmail.com
-- Admiral Peg Pellerin, Commandant, STARFLEET Academy

In 1993, with the help of Denise Dugan (former Director of the College of History) the Academy established Honors Graduates Awards to recognize outstanding achievement within a 12-month period covering the previous calendar year.

These awards have been renamed "Red Squad" or "Red Squadron", and consist of the "Best" students which have attended STARFLEET Academy.

Each year at IC, the top student from each College is awarded a Red Squad Award. Only non-Cadet Colleges issue Red Squad Awards. Each Director nominates the top student from his or her respective College.

Gold Squad Awards are given for family involvement at the College level. The family that achieves the “best of the best” status, as a family, within a respective College, shall receive a Gold Squad Award for that College. These awards are a joint effort between the College Directors, Cadet College Directors, and Command Staff of the Academy.

GREETINGS FROM THE WOLF'S DEN

ADMIRAL BARBARA "WOLF" PAUL, ACADEMIC COORDINATOR

Or to put it simply, from the Office of the Academic Coordinator. I have just recently stepped into this position, and I'm doing my best to learn everything on the fly. I'm finding out there's a lot to this position, besides collecting Director & Dean reports & filing my AC Report each month. The AC is considered the 3rd in command of the Academy, and has other Administrative duties that go along with the position. These are the duties of this position. Be advised, I will be looking for an Assistant AC after the election, so if anyone is interested in this spot let me know.

DUTIES OF THE ACADEMIC COORDINATOR

All of the AC duties fall under this directive: To oversee and monitor the day-to-day operations of Academy. This goal may be divided into the following tasks, and may be shared with the Assistant AC.

A. REPORTING AND RECORDS

- Receive monthly status reports from Directors and Deans
- Assemble Dean reports into a monthly Academic Report that is sent to the Commandant, Vice Commandant, and assistant AC.
- Maintain an archive of all academic reports received.
- Inform the Administrative Assistant of Support and the Staff Member who updates the Catalog (Currently: Franklin Newman III) of any personnel or curriculum changes. This task may be delegated, but the AC is responsible for the accuracy of the content.

B. CONFLICT MANAGEMENT

- Settle disputes that might arise among the faculty, or challenges between a director and a student, if the Dean cannot solve the conflict.
- Try and determine if lack of communication between students and Directors is the fault of the Internet, incompatible servers, or dereliction of duty.

- Act as mediator if there is a breakdown in communications between the Director & student.

C. PERSONNEL MANAGEMENT

- Train Deans in their required duties
- Be available to all faculty and staff to answer questions about procedure, protocol, and other topics affecting Academy operations.
- Keep track of, and evaluate, the performance of faculty members, and make suggestions to Command for promotion, placement, or removal, if necessary.
- Research and suggest appropriate candidates to fill vacancies within the faculty by advertising on the SFI personnel lists, or from the graduate lists, with suggestions from Directors and Deans.
- Vet candidates for positions who apply to Academy from the general membership, and send them to the appropriate Deans and Directors. Vetting would include the following: checking the candidate's membership status, and what courses have been taken that are required for the position, and those courses taken that indicate a candidate's interests; check Bad Boy list and other outside information about nature & conduct of applicant; and check criminal records and other profile lists.
- Present vetted candidates to Command for approval.
- Suggest personnel and curriculum changes for the good of Academy to Command for consideration.

D. CURRICULUM MANAGEMENT

- Evaluate the amount of activity of the Courses/Colleges to determine if they should be retired or allowed more time to prove themselves. The 3 & 3 rule (Minimum of 3 graduates in three years) is used to accomplish this.

... continued on next page

GREETINGS FROM THE WOLF'S DEN*Continued from page 5*

- Present changes in Academy organization to the CDC for discussion and approval, amendment, or denial. An example would be the Merge & Purge (Combining or closing colleges).

E. DATABASE MANAGEMENT

Inform support if access needs to be removed from the control of the person leaving. One such situation would be if a Director left, and his access had to be removed immediately. The DB must be protected from unauthorized entry, so no one may be assigned any course unless a member of the faculty or staff.

- Check that Colleges and Courses are entered, sorted, and assigned correctly on the SFA website. In most cases, the Deans are to do the data entry, but some Deans may not be comfortable with the database, so the AC must do it.
- All database changes need to be sent up to SFA Services in a work order.

F. COMMUNICATIONS MANAGEMENT

- Keep the faculty informed on procedures, news, and changes on the Academy Yahoo Group and the Deans Yahoo Group
- Keep Support and Command informed of personnel and curriculum changes, so that their lists & their respective documents may be updated.

G. OPERATIONAL PROCEDURES DEVELOPMENT

- Advise Command of problems with operational procedures that need addressing (See SAOC Manual)
- Offer advice to Command when asked.
- Participate in, or initiate, brainstorming sessions to improve Academy operations.
- Suggest changes in operational procedures for the SAOC manuals for upload onto the Academy website.

As you can see it's a pretty involved position.

Something I have discussed with Carol Thompson, and I'd like to see implemented, is the use of the Chain-of-command. When utilized, as it is meant to be used, it helps with resolutions of issues in a much faster manner. We were always told in the military to handle things at the lowest level possible, and pass it up only when needed. What this means is that the Directors need to handle things between themselves & their students when possible. If it needs to go further, the Director should take it to their Dean for resolution. If the Dean can't resolve it, then it comes to me.

Another area that we need to work on is the need for Directors to have an Assistant Director. We have numerous schools without assistants at this time. What this means is that should the Director be down or out of the picture for whatever reason, and there's no Assistant, then the Dean will need to slide into that slot & run the school until such time as the Director returns or a new Director is picked. This puts an extra burden on the Dean that doesn't need to be there. Also, Directors with assistants need to make sure their assistants have the same files as they have. This includes an up to date course record. So, what I'd like to do here is have all you Directors send your Assistants copies of all your exams, manuals, and answer keys, along with a current course record. Also, each month when you send your reports in, include a copy of your course record with it.

Also, it's imperative that your Dean, Carol Thompson, Franklin Newman III, and myself have copies of everything in your files you want backed up, in the event your computer goes Tango Uniform (Tail Up) or is damaged and everything is lost. You can contact your Dean first (remember the chain of command) to get these files sent to you. If all goes according to plans, you should be up and running with 24 to 48 hours or less.

Lastly is maintaining communications with each other. In my Institute (IOLSS), I have a Group

ACADEMY NEWS *3rd QUARTER*

CHANGES IN FACULTY IN JULY:

Denise Rush to English
 Glen Diebold to NIMS & Evidence
 Robin Fleming to Government & Politics Trivia
 Cher Schleigh to Security in Trek

CHANGES IN FACULTY IN AUGUST:

Carol Thompson: Dean of IOLSS & IOLEM
 Peg Pellerin to Asst. Dean of IOAS
 Leo Rogers Asst. Dean of IOLEM
 Glen Diebold to College of Ecology (New)
 Robin Fleming to College of Rocketry
 Annie Wheeler to College of Sci-fi on TV: Science & Technology
 David Anderson, Jr. to College of Starship Design
 Peg Pellerin to Andorian Orientation College, Ferengi Orientation College
 Josephine Fisher to Caitian Orientation College

CHANGES IN FACULTY IN SEPTEMBER :

Barbara Paul to Academic Coordinator
 Barbara Paul to Dean of Life Science Studies
 Chris Lynch to Caitian Orientation

CHANGES IN ORGANIZATION IN JULY

Military Movies was audited and closed and some exams parsed out to other Colleges.
 Starship Design was split off from Engineering and placed in the IOSTS.
 VAS remains closed for rewrite.

CHANGES IN ORGANIZATION IN AUGUST

Military Movies was audited and closed and some exams parsed out to other Colleges.
 Starship Design was split off from Engineering and placed in the IOSTS.
 VAS remains closed for rewrite.
 SACOM was closed for a major rewrite. A ghost team was set up and work is progressing.
 Psychological Perspectives closed for rewrite
 Cadet Preparatory College closed indefinitely

CHANGES IN ORGANIZATION IN SEPTEMBER

Formation of the Institute of Medical Arts
 College of Charles Schulz merged into the College of Humour
 Closure of Young Detective in the IOLEM
 Renaming of the College of Rocketry to the College of Rocketry & Propulsion

PROMOTIONS:

Robin Fleming to Commander on 8/02/2016

Academy Moving Forward with Moodle

Captain Kevin Plummer

Chief of Electronic Services, SFA

By now you have all heard that a new website for the Academy is under construction and you have probably heard the term “Moodle” being used in conjunction with this topic. But just what is this Moodle and how will it help the Academy?

According to Google, Moodle is defined as a “(Modular Object-Oriented Dynamic Learning Environment) and is a free, open-source, learning management system or e-Learning platform, that serves educators and learners across the globe. It is the most widely used LMS in the world and currently has over 68 million users world-wide (and growing!).”

There were several reasons Moodle was chosen for the core of the new Academy website. First, we reviewed several LMS programs both commercial and free and Moodle outperformed the majority of them. Second, it had the capability of being setup as a “stand alone” software and did not need additional programs to run it on our website. Third, it is open-source and has a HUGE community that is constantly improving and expanding the software.

Moodle and our website is being configured with both the student and the faculty in mind. There is a slight learning curve for the faculty when it comes to doing the things they normally have to do but we are developing a step-by-step manual for their use. Students on the other hand will find the site intuitive and

straight forward.

The new site will feature a built in FAC program that will expand on the capabilities of our current system. It is our hope that the Academy Directors will embrace the new system and convert more of their courses to work with Moodle.

Using the new program, our students will find an easy and fun way to access our courses. Directors will find a variety of reports at their fingertips and be able to see and track the progress of our students like never before. Additionally they will be able to complete maintenance tasks with just a few clicks and have full control over their course listings.

The Academy has a “Moodle Trailblazer” team that is setting up as much of the site as we possibly can. We welcome Directors who are interested in learning Moodle and will offer them as much training and support as is needed to make them proficient with the software. If you are interested in this contact Carol Thompson or myself and we will get you started.

SO YOU WANT TO BE A DIRECTOR??

Basic requirements are to be at least 18 years of age and have taken OTS and SAOC. Cadets at least 14 years of age may serve with an adult mentor.

To assume a vacancy, you must pass all of the exams in the College, or if a College of 35 to 60 exams, 75% of the exams. Colleges over 60 exams are tested out at 50% with a maximum of 50 exams required.

Assistant Directors must meet the same requirements as the Director.

To direct a College of your own creation, first check the College Catalogue to make certain your idea is not already being used.

If the concept is not being used elsewhere, submit a College outline, exam, and key to the Course Development Contact, Carol Thompson, at betazoid@mosquitonet.com.

Carol will determine where your College fits within the Academy structure and introduce you to your Dean who will lead you through the approval process.

GETTING TO KNOW YOU

THE ADMINISTRATORS, DEANS, AND DIRECTORS OF STARFLEET ACADEMY

DONALD DOBRIN

INTERVIEW BY ADM PATRICIA LEWIS

How did you get introduced to the television show Star Trek?

I have no recollection of that Senator... You realize how loonnng ago that was...lol We were living in Illinois at the time at we just got our first color TV. We spent the first few days glued to it and Star Trek was one of the shows that we watched at night during that first couple days. I made it a point to watch it the next week and got hooked.

Which is your favorite of the different Trek movies and series. Do you read the novels or comics?

Wrath of Khan. No comics but I have read the adapted versions of TOS by James Blish.

Have you met any of the Trek actors or guest stars? Go to any conventions?

I went to the Star Trek Experience when it was in Las Vegas, I met Jeffery Combs and Beverly Washburn. (Which episode was she in????? hint it was a TOS epi. Answer at the bottom)

How did you find out about the STARFLEET International Fan Club, what made you want to join?

I stumbled across the academy website one day while I was roaming the web. In order to take courses, you had to be a member of the club so I joined.

What interested you about STARFLEET Academy? What courses did you start out taking?

Alien Studies courses which is what I took first. (Romulan, Andorian, Vulcan)

When and how did you become a Director?

While I was attending a training class in Oklahoma City, I noticed that there wasn't a math college in the academy. I sent an email to Carol and she asked me to develop a couple classes and boom, the courses and the new college were approved.

Let's list all of your Colleges so students can be sure to look you up:

Orion Orientation College, College of Mathematics, College of Fire and Police History, College of Special Operations in Movies, College of Federation Studies, Cadet Colleges of Federation Studies and Mathematics. Dean of the Institute of Special Operations

When you are not working on STARFLEET Academy exams and projects, what do you like to do in your spare time? Hobbies?

Spare time you say, what would that be...lol. Right now I am getting ready to retire from the FAA. I am remodeling some rooms in the house and getting ready to move someplace where its green! I do squeeze in time for a few of hours of Star Trek Online every week. I have 5 acres and it's amazing how much time maintaining just part of it takes.

You are welcome to add any questions that you think would be of interest such as travels, academia, vocation, sci-fi events or whatever.

Growing up it seemed like we moved every year. My dad worked for RCA. They had a contract with the Air Force to install runway lighting systems at various bases. So I ended up living in places like Puerto Rico, Virgin Islands, and the Philippines Islands. Have been to 25 of the 50 states, Canada, Mexico, England/Scotland. I spent time in Denmark, and Germany while in the Air Force. I have a few places on my travel bucket list I hope

... continued on next page

GETTING TO KNOW YOU: DONALD DOBRIN*Continued from page 18*

to chip away at in retirement: Scandinavia, rest of Europe, Australia/New Zealand and see the Great Wall. Maybe even to Moscow to see the Bolshoi Ballet.

Then:

Let's close the interview in the same fashion as James Lipton does on Inside the Actors Studio, with a Starfleet Academy twist.

What is your favorite STARFLEET Academy subject?

Alien Studies

What is your least favorite STARFLEET Academy subject?

No answer given.

Which is your favorite Star Trek series?

Enterprise

What is your all-time favorite Star Trek episode out of all the

series?

Arena

What is your least favorite Star Trek episode out of all the series?

Charlie X

If you could be any alien race we've seen in Star Trek, what would you be?

Andorian

If you could be/have been a fly on the wall, which Star Trek actor would you like/have liked to follow around for a day?

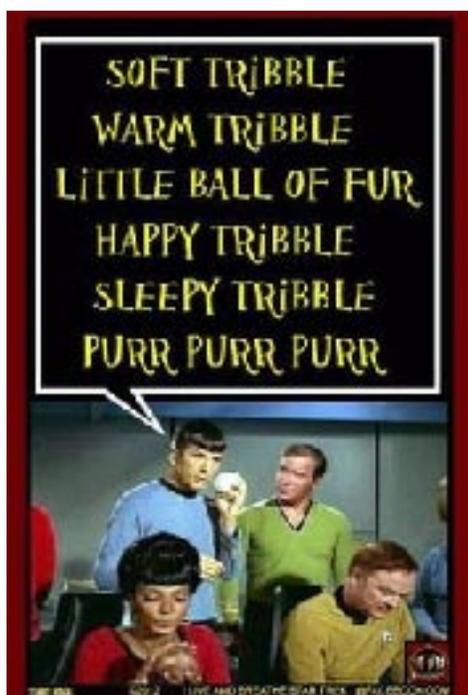

Brent Spiner
If transporters were real, where would you transport to first?

If transporters were real then we would be traveling in space right...? Wisconsin (to visit my mom).

If you could write a Star Trek episode, what would be the title?

Twilight of the Iconians
Kirk or Spock?

Ummm... here is a question for you first---MacGyver or Col. O'Neil... Spock, its logical.

GREETINGS FROM THE WOLF'S DEN*Continued from page 6*

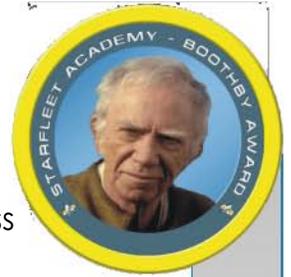

Distribution list in my address book with all the Directors & Assistant Directors emails on it. When I get something that impacts them, or I feel they should know about, I post an email and it goes out to everyone. This way, we're all on the same page & no one is left hanging. I send out a reminder on the 1st of each month reminding them their Director reports are due in to me by the 10th. My Dean report is then compiled & sent out on or before the 15th. As the AC, I have to compile all the dean reports into my AC Report, which is due out on the 25th, and it all starts over again on the 1st. Doesn't leave much wiggle room, does it? This is why it's critical everyone holds up their end of things. When everyone

does their part, then the whole operation runs like a well-oiled machine.

In closing, I'd like each Director, Asst. Director, and Dean to look over your report forms and make sure you have the correct date and name of your school or Institute on it. It helps me file your reports quickly and accurately, and I'll be able to retrieve them if needed as well. Remember, my door is always open. Communications works best when there's 2 people talking to each other. With a little tweaking, here and there, we can continue being the Jewel in the crown of Fleet. Keep up the Great work. It's my honor & privilege to be able to work with such an outstanding group of folks.

Understand the way a cryptogram works. Most cryptograms or cryptoquotes are basic substitution ciphers, meaning that the letters of the alphabet are being represented by other letters. A cryptogram in Klingon wouldn't be any more difficult than a cryptogram in Bajoran, because the symbols act as patterns in the end. Find the patterns and you'll crack the code.

In general, look for the patterns underneath the letters. Try to disassociate yourself as much as possible from the letters you're looking at.

Cryptograms don't try to play tricks on you, however difficult they may be. In almost all cryptograms, letters will never stand for themselves. In other words, the "X" in the puzzle you're trying to work out definitely doesn't stand for "X" in the alphabet. Solve one letter at a time. It's unlikely that you'll recognize one mess of jumbled up nonsense letters as a particular word right away, no matter how long you look at it. Try to figure out the most likely single letter words, then carry that substitution through the rest of the puzzle, filling in as many blanks as possible with educated guesses, then filling in the remaining blank spaces.

Completing a cryptogram is a slow process that'll require lots of guessing. You'll weigh lots of possibilities and make the best guess at the time. If, later, that guess turns out to be wrong, then change it.

The answer is hidden somewhere within this issue of the Academy Monitor. Good luck!!

Having been asked to supply my thoughts as to the reason for my little corner of the Academy to exist I have to admit I could sum it all up in one word. INCLUSION. Inclusion means that every cadet and every adult member of STARFLEET should have the ability to participate in every level of the SFA experience from which they wish to gain knowledge, and the enjoyment of the SFA experience.

Enter those members with disability challenges. If the Director of a particular course should have an application from a student who indicates visual problems for which large print copies of the course or exam are insufficient, and when a shipmate or family member is not available to read the course work to student for comprehension, it is my assignment to orally record whatever course work is required, and the course exam so that the student might participate in SFA.

In that role, I am also willing to interact actively with the student if comprehension of the material is lacking.

My reward for this is meeting staff and administration of SFA and interacting with them at their point of need; as well as meeting members throughout STARFLEET who want to fully participate in all this organization has to offer and grant them that opportunity.

- - -

I know whom I have believed and am persuaded that He is able to keep what I have committed to Him until that Day.

2 Timothy 1:12

Congratulations to the following SFA staff members who earned Time in Service Awards in 2016.

Fans of teddy bears will be happy with the news that Build-A-Bear now has available a 50th anniversary Star Trek collection of bears.

The bears include:

Star Trek 50th Anniversary Bear – \$25.00

Star Trek Spock Bear (without uniform) – \$28.00

Commander Star Trek Spock Bear Set (with uniform, boots and phaser) – \$55.50

Voyager Star Trek 50th Anniversary Bear Set – \$52.50

Star Trek Blue Uniform Two-piece – \$15.00

Star Trek Gold Uniform Two-piece – \$15.00

Star Trek Red Uniform Two-piece – \$15.00

Star Trek Phaser – \$5.00

Theme from Star Trek chip – \$7.00

To order any of these, head to your nearby Build-A-Bear Workshop or go to

www.buildabear.com

BOOK REVIEW: STAR TREK ENCYCLOPEDIA (2016)

Admiral Patricia Lewis

Dean, Institute of Science Fiction Literature

STAR TREK ENCYCLOPEDIA REVISED & EXPANDED EDITION (2016)

By Michael and Denise Okuda

Ok, this wasn't a surprise gift. I heard about it and pre-ordered on Amazon.com. I thought October would never come, or something would happen and I wouldn't get my new Encyclopedias that I had saved for months to buy! I know this may be sacrilege to some, but I actually used my last Star Trek Encyclopedias (1994, 1997, 1999). And when I say used, they are covered in hand-written notes (gasp), and the 1999 version has split in half...sort, of... I would take a picture, but I know it traumatizes my husband every time it comes out of hiding. I'm one of those people who LOVE books. I LOVE holding them, bending them, cracking the spines, folding pages, taking notes in them, and dragging them everywhere I go.

So, I had been dreaming of when my new Star Trek Encyclopedias got here, I could start looking and trying to find information that was missed, I could add in entries from any movies that weren't included! Then the books arrived...

The very first moment was like trying to pull the Excalibur out of the stone! I reached down to pick up the box from where the mail carrier had dropped it, it didn't budge. I couldn't pick it up with one hand, it took two hands to pry it from the surface of my deck and get it into the

house. Wow! What did Amazon use to pack around the books that made this so heavy!? Nada! Not a bloomin' thing. I opened the box, and in it was a big thick slipcover holding the two mammoth encyclopedias. Did I mention this thing is heavy?

There are over 1,000 pages between the two books, containing just about anything you could want to know (except Star Trek Beyond). As I did with the Spock Logic Book, I heaved the slipcover over to my recliner, and nearly strained a muscle trying to get the books out of the slipcover (did I say it's heavy?), which the slipcover is a thing of beauty in itself, meaning, I've never seen one that thick and heavy...

The set of books are very similar to the layout of the original encyclopedias, there are many color images and lots of cross-referencing. Something everyone will notice right away is the font, it is smaller and a little harder to read for those of us who aren't spring-chickens anymore. But they had to cram a lot of information in there, and they do. I have read full sets of encyclopedias and dictionaries cover-to-cover, but by the time I got about a quarter way through the first volume of this set, I started feeling like I was getting information overload, which is really saying something. There is just SO much (fun, interesting?) stuff to digest! After getting help to put them back in their slipcase, I have relegated them to my bookcase until my mind assimilates the immensity of these books. Once I get caught up with my Academy projects, I am going to pull them back out and tackle reading them... but I think I will leave the pen and pencil in the desk. I have finally met my match...a set of books too beautiful to write in, fold corners, or crack spines. Though my great-grandchildren may use it as a doorstop in the 22nd century. Bottom line: Very worth the scrimping and saving to purchase and add to our Star Trek library.

ACADEMY MONITOR is a quarterly publication of STARFLEET Academy, a division of STARFLEET: The International Star Trek Fan Association, Inc. It is intended for private use of our members. The Last Word...

ADM ROBBIE LEWIS
MONITOR EDITOR GUY

I apologize for this issue being a few extra days late. My wife and I live near Canton, Ohio, and we've had a little October baseball playoff action this past month. I've been naturally preoccupied with my Cleveland Indians, who as of this writing lost the World Series to the Chicago Cubs. My congrats to the Cubs and their fans in STARFLEET Region 12.

Issues of the Monitor keep growing in size. We've added four more pages since last issue, and we're not going to stop there. Next issue will be out inside the new year, and with the STARFLEET elections, we'll have a new Commander, STARFLEET -- and with Peg Pellerin moving on, we'll have a new Academy Commandant. We should see an introduction to our new Commandant here, and I'll hope that they continue to use the Monitor as the Academy newsletter. With the new, revamped Academy online course system coming online shortly, the year 2017 is going to be very exciting for the STARFLEET Academy.

We're always welcome to contributions and articles about the Academy, deans, school directors, and the students themselves. Directors, reach out and let us know more about your schools, courses, and institutes.

Since we'll be back after the new year, Patty and I -- and the Monitor staff -- hope everyone has a very nice, very happy, and very safe Christmas holiday season.
